CIDB iTENDER/ROP COMPLIANCE MONITOR; APRIL 2016

The cidb *iTender/RoP Compliance Monitor* provides indicators of the level of compliance and non-compliance with the iTender/Register of Projects by client bodies. These indicators can be used by clients to verify their non-compliance with the cidb regulations, and for the cidb to support enforcement actions and sanctions.

This *Compliance Monitor* is being rolled-out incrementally, and currently focuses on:

- selected national and provincial infrastructure departments;
- public entities; and
- Metropolitan Councils.

The *Compliance Monitor* will be extended to additional local authorities in due course.

1. Introduction

Information on tender notices, tender awards, and project closure is of paramount importance to the cidb, and provides the basis, amongst others, for:

- gathering reliable information on public sector construction expenditure, at a provincial level and at various tender Grades;
- assessing supply and demand in the construction industry;
- promoting and increasing transparency and accountability in construction procurement;
- monitoring and assessing the level of expenditure (through main contracts) on black-, women- and youth-owned construction enterprises; and
- monitoring compliance with and the impact of cidb Best Practices.

The Construction Industry Development Regulations of 2004, as amended, were developed in terms of the CIDB Act 38 of 2000 to support the above objectives. In terms of these Regulations, employers in the public sector must comply with requirements for project registration, award and closure as follows:

- a) for the public sector, on projects of which the value exceeds R200 000.00; or
- b) for a public entity listed in Schedule 2 of the Public Finance Management Act, on projects of which the value exceeds R10 million.

Specifically, in terms of the CID Regulations, employers (or clients) must comply with the following:

- a) registration of employers and employer's representatives on the cidb *Register of Projects* in terms of Clause 20;
- b) advertisement of tender invitations cidb *iTender/Register of Projects* in terms of Clause 38(6) (transitional measure);
- c) registration of the tender award in terms of Clause 18; and
- d) contract completion or cancellation in terms of Clause 21, once the transitional measures have been removed.

In the case of the public sector organisations and public entities, non-compliance with the cidb Regulations must in terms of Clause 21(4) be reported to the Auditor General, and can also result in fines being applied.

It is the cidb's aim and objective that this *Compliance Monitor* will contribute to improving compliance with the cidb Regulations with regard to the registration of tender notices, tender awards and contract completion – and thereby contributing to a better understanding of public sector infrastructure spend and the development of the construction industry.

2. Background and Analysis

The background and key assumptions used in developing and in interpreting the cidb *iTender/RoP Compliance Monitor* are highlighted below.

2.1 Tender Notices

In addition to the cidb requirement that tender advertisements are to be recorded on the cidb *iTender/Register of Projects*, it is a National Treasury requirement that all public sector and public entities tenders are advertised in the *Government Tender Bulletins*. Details of advertised tenders have therefore been obtained from the *Government Tender Bulletins* as well as online sources such as *Online Tenders* and *Tenderscan* (their support is gratefully acknowledged).

Details of non-compliance with the cidb has then been obtained by comparing tender notices recorded within the cidb *iTender/Register of Projects* and those recorded in the *Government Tender Bulletins* and the online sources consulted. As the *Government Tender Bulletins* and the online tender scanning services provide a relatively comprehensive picture of all public sector and public entity tenders, the assessment of non-compliance is relatively comprehensive.

Notwithstanding this, the cidb views the details of non-compliance reported on in this *Compliance Monitor* as indicators only, and it is the cidb's stance that the clients have the responsibility to provide evidence of miss-interpretation of non-compliance to the cidb.

Note that in this regard, inconsistencies do arise in the indicators of non-compliance where differences occur in the tender numbers on the cidb *iTender/Register of Projects* and in the government gazette or other tender sources, such as:

- xxxx12/13(A) and xxxx12/13A
- xxxx:12/13 and xxxx-12/13

Such differences should be brought to the attention of the cidb, and the cidb will endeavour to make the necessary changes.

2.2 Tender Awards

Details of tender awards (or contract awards) are obtained from the *iTender/Register of Projects*. Details of tender notices recorded on iTender/RoP for a period of ninety (90) days and above, but have not been recorded as being awarded on iTender/RoP.

The following indicator of non-compliance with the cidb requirements for registering tender awards on the cidb *iTender/Register of Projects* is used in the *Compliance Monitor*:

- tender notices recorded in the cidb *iTender/Register of Projects*, but not recorded in the cidb *iTender/Register of Projects* as tender awards.

The indicator above is clearly only an indicator of non-compliance, and does not take into account the non-award or cancellation of tenders, etc. Notwithstanding this, the indicator is an important indicator, and it is the cidb's stance that the clients have the responsibility to provide evidence of miss-interpretation of non-compliance to the cidb.

2.3 Contract Completion

Indicators of non-compliance with cidb requirements for recording of contract completion and/or contract termination will be included in due course.

3. Tender Notices

Details of the number of tender notices for selected public sector organisations and public entities that are recorded in *Government Tender Bulletins and other online sources* but not recorded on cidb *iTender/Register of Projects* for the period 2015Q2 to 2016Q1 is shown on the following pages. In addition, details of the number of tender notices for selected public sector organisations and public entities recorded in *Government Tender Bulletins* which are also recorded on cidb *iTender/Register of Projects* is also shown. Collectively these tables give an indication of the extent of compliance or non-compliance by the client bodies.
